The Loss of a Chow World Legend Dr. Clif Shryock

Again we sadly say goodbye to one of the nicest and gentlest of Chow people Dr. Clif Shryock. He has been in the breed for decades, Clif was always ready to help you with any questions you may have had. Clif passed away in the hospital May 31st during the 2000 US Chow National, many years ago his first wife Vivian was stricken at the National Specialty in Atlanta in 1986, she passed away May 1, just a couple of days before she was scheduled to judge the first Specialty of the Atlanta Club.

We could just picture Sherrie, Clif, and Vivian watching the rest of us at this year's National with great amusement. Clif judged the first National we hosted here in the west and had one of the largest entries Canada had ever seen. Both Clif and his wife Marlene were wonderful, we really enjoyed having them both with us.

Both Harry and myself will remember fondly the many parties and fun times we spent with Clif and Marlene. The Chow World has lost 2 very dedicated Chowists this year in Sherrie Harper and Clif Shryock. They will both be in our thoughts for many

many years to come...we miss you both.

This year US National Specialty was a great success, it was a little HOT, at least to us from the west. The King Henry VIII hotel I'm sure was a wonderful place in it's hay day but as they plan to tear it down to make room for a new runway for the airport things are a little different. One of the most popular topics was trading horror stories about your rooms.

But in spite of it all everyone had a great time. There were two big Canadian winners in the draws, Fran Johnson won 2 nights stay at the hotel, while I won a large collection of Givenchy Oranza perfumes and creams. I later received a nice gift from the show committee of more perfume for helping out with the decorations for the Auction dinner. I certainly will be smelling good for awhile.

The Auction was wonderful success which raised over \$7000 for the Club. An Akita breeder donated a Baccarat Crystal Chow to be auctioned for Canine Health Research, it took in \$750. in a very lively exchange of bids. There was a mystery item up for bid, bidding was started before it was unwrapped, bidding really got going when it was revealed the item to be a candid shot of Paul sloughed ringside in Denver, blown up to poster size and framed. Someone should have taken a picture of Paul when the wrapping came off. It brought in \$70.00 and was presented to Minnie by the buyer. I wonder where she will hang that one?

The winners dog - what can you say, I don't think there was a person there that did not want to take that dog home. It was also his first show and he did **SHOW** in every sense of the word.

We had a pretty good Canadian turn out, Christine Farnell, Fran Johnson, Judith Tulloch, Jacquie Swim, Pam Schmied, (who was part of the show committee), Maureen Clune, Gail Forsythe, Lydna Lockstein, and of course this year's Judge Paul Odenkirchen with wife Minnie were both there.

Both Paul and Roy Bailey did a nice job of judging, they both had a lot of patience and took their time to find just the dogs they wanted. Paul put a few dogs up on the table which certainly helps out the younger ones, not to mention old knees trying to get down to their level too.

Pam Schmied outdid herself in the art department with the placements, she carved and painted the large (3 to 4 feet) Chows, Breed was a "King of Hearts", BOS was a "Queen of Hearts" and BW was a "Jack of Hearts" all the theme of "Deal Me In". The 4 placement Chows dressed as cards and were holding up playing cards. These were also auctioned off but you had to leave them till after the show. Those of you who get Chow Life, just wait till you see the pictures of the wonderful creations.

One of the most fun nights was the Karoke Party, it was packed, loud and FUN. Who knew Christine Farnell would have such a voice!! Kathy Feroglia (a.k.a. Johnson) won money for best Duet, she was a dead ringer for Wyonna and sure to win Best Look-a-Like, until Diana Ross walked in, still don't know who Diana really was. Frank McGurk from England was the most frequent singer to share his talent with the audience.

Frank was also nominated for the Bitch of The Year award given out at the Awards dinner by the Fung Family. Frank was wearing a shorter skirt than most of the contestants.

All in all it was a most enjoyable week.

|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Hello again, In this issue of our CCFC newsletter we are going to include a copy of a new Chow Chow Standard. The underlined italics are totally new and anything with a strike through is deleted from the Standard as it is now. The ordinary printing is what we want to leave unchanged. Most of the additions are meant to just clarify different points in the Standard. We are trying to make all points clear not only to new owners and breeders but also clear to judges who may only see the occasional Chow in the ring. I think this Standard is basically what is needed.</p> | <p>All 3 Chow Clubs, Maple Leaf, South Central, and CCFC have worked on this for about four years.</p> <p>Please go over this very carefully and give us your comments. We are hoping to send this out for an official vote in the near future. Please comment on each point and also whether you could accept the whole Standard as our new one. Please notice on number 14 there are two totally different ways we could approach this. Let us know which way you would prefer and maybe a comment on why you have picked either the first or second change.</p> <p>As these are very important changes we are trying to</p> | <p>make please go over it very carefully and be sure to send it back to us with your comments.</p> <p>Thank you Kitty Egan</p> <p>Please send your comments to either:</p> <p>Kitty Egan</p> <p>7acres@mars.ark.com (250) 339-5907</p> <p>Suzanne Staines</p> <p>chinabar@home.com Ph: (604) 826-3284 Fax: (604) 820-9098</p> |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Underlined Italics is totally new text.

~~Anything with strike through is being deleted from present standard.~~

Normal text is wording in the present standard that is staying.

Chow Chow

1. HISTORY

The Chow Chow is an ancient breed of northern Oriental origin. As a working breed in its country of origin, the Chow Chow was used to guard and hunt. Today the Chow is primarily a companion dog.

Nothing in CKC standard now.

2. GENERAL APPEARANCE

A ~~massive, cobby~~, powerful dog *of medium size* active and alert, with strong, muscular development, and perfect balance. Body squares with height of leg at shoulder; head is broad and flat, with short, broad, and deep muzzle, accentuated by a ruff; the whole supported by straight, strong legs. *Tail carried well over the back.* Clothed in a ~~shining~~ *smooth or, off-standing rough double coat, Dogs to look masculine. Bitches to look feminine. When comparing the different sexes – allowance be made for bitches who may not have as much head and substance.* The Chow is a masterpiece of beauty, dignity, and untouched naturalness.

To add to existing Standard for a little more clarification.

3. TEMPERAMENT

Keen intelligence, independent spirit, aloof and reserved with stranger. Aggressiveness or timidity is undesirable. Because of its deep set eyes, the Chow has limited peripheral vision and is best approached from the front.

Not in CKC Standard.

4. SIZE

A medium size dog who is balanced, cobby and powerful. Average height of adult specimen is 16 to 20 inches at the shoulder.

Not in the CKC Standard under size. Some of this was in the General Appearance unit.

5. COAT AND COLOUR**COAT**

There are two types of coat, rough and smooth. Both are double coated. Rough- the coat is abundant, dense, straight, and off standing; rather coarse in texture with a soft, thick, woolly undercoat. Coat and ruff generally longer in dogs, than in bitches. Tail well feathered. Texture and condition should be given greater emphasis than the length. ~~It may be any clear colour, solid throughout with lighter shadings on ruff, tail, and breechings.~~

The Smooth Chow Chow is judged by the same standard as the rough variety with the exception of coat length. The Smooth should have ~~the same woolly undercoat, a harsh texture and, dense, smooth-outer coat with definite undercoat. as the rough variety, but the Smooth's outer coat is short and gives a sleek appearance.~~ There should be no obvious ruff or feathering on legs and tail.

To clarify the two coats a little more.

COLOUR

There are five basic colours, red (light red to deep mahogany) black, blue, cinnamon and cream (white to a dark biscuit). Clear coloured, solid throughout, with lighter shadings on the ruff, tail breeching and feathering, a cream dog may have darker shadings. Acceptable colours to be judged on equal basis.

To clarify colours as this is not in our standard right now.

6. HEAD

Large and massive in proportion to size of dog, *but* proudly carried, *not over exaggerated as to make the dog seem top heavy, or to result in a low head carriage*, with broad, flat skull; well filled under the eyes; moderate stop; Muzzle short in comparison to length of skull *but not less than 1/3 of head length*, broad from eyes to end of nose, and of equal depth. The lips somewhat full and over hanging. Teeth strong and level, with a scissors bite; should neither be overshot, nor undershot. Expression essentially dignified, lordly, scowling discerning, sober, and snobbish - one of independence.

To clarify the Standard as it is now. We do not want our dogs losing balance.

NOSE

Nose large broad, and black in colour. *In all colours black noses are preferred. Blues may have a slate coloured nose and creams may have a brown or liver coloured nose.*

At present we cannot show the creams, as it is not allowed for them to have a self-coloured nose. The cream dogs do not have to have a black nose to have good pigment.

EYES

Eyes dark, deep set of moderate size, and almond shaped

Dark, deep set, of moderate size, almond shaped , pupils must be visible.

Some eyes are getting so deep set as to be out of sight causing problems.

EARS

Ears small, *thick* , slightly rounded at tip, stiffly carried *with a slight forward tilt, the inner corner of the ear to be in line with the outer corner of the eye* They should be placed wide apart, on top of the skull, and set with a slight, forward tilt.

Adding to information already in Standard.

TONGUE

Tongue is blue-black. The tissues of the mouth should approximate black, *gums preferably black. A solid black mouth is preferred. Lips should be overhanging but not pendulous.*

Adding a little more information to existing Standard.

7. NECK

Strong, full, set well on the shoulders *nicely arched and of sufficient length to carry the head proudly, well above the topline, when standing.*

Adding to existing Standard.

8. FOREQUARTERS

Shoulder muscular, slightly sloping. Forelegs perfectly straight, with heavy bone and upright pasterns, *placed well apart and parallel. Elbow joints set well back alongside the chest wall, elbows turning neither in or out. Feet, round, cat-like with thick pads, standing well up on the toes. Dew claws may be removed.*

Adding to existing Standard.

9. BODY

Short, compact *close coupled, strongly muscled, broad and deep.* Back short, straight, and strong. Chest broad, deep, *never narrow* and muscular, with well-sprung ribs *but not barrel.* A narrow chest is a serious fault. Loins broad, deep, and powerful, and , *well* let down in the flank giving overall appearance of squareness..*Topline, straight, strong and level from the withers to the base of the tail..*

Adding to existing Standard.

10. HINDQUARTERS

Hind legs straight-hocked, muscular, and heavy boned. . *Rear and front bone approximately equal. Stifle shows little angulation, hock joints well let down, must be strong, well knit, never bowing or breaking forward or to the side. Hock joint and metatarsals to be in a straight line below the hip joint. Feet same as forequarters. Feet compact, round, cat-like, with thick pads.*

Adding to existing Standard.

11. TAIL

Set well up and carried closely to the back, following line of spine at start.

No change.

12. GAIT

Completely individual. Short and stilted because of *a straight stifle and*. straight hocks. *Sound, straight moving, agile, quick and powerful, never lumbering. It is from the side that the unique stilted action is most easily assessed. The rear leg moves up and forward from the hip in a straight, stilted pendulum like line, with a slight bounce in the rump, legs extend neither far forward nor backward. There should be no roll through the midsection. Viewed from the rear, the line of bone from the hip joint to pad, remains straight as the dog moves. As speed increases, the hindlegs incline slightly inward. Viewed from the front, the line of bone from shoulder joint to pad, remain straight as the dog moves. As speed increases, the forelegs incline slightly inward, the front legs must not swing out in semicircles nor mince or show any evidence of hackney action. Somewhat lacking in speed, the Chow has excellent endurance.*

Just adding to existing Standard.

13. FAULTS

1 Overshot or undershot bites.

2.A narrow chest.

3. Anything but a black nose on a red, black or cinnamon coloured dog.

Before you comment on #3 please check #14 first. Your ideas on #13 will depend on how you want to see #14 done. If you want (a) for the disqualification then #3 would not be there at all. If you want (b) for a disqualification then #3 would stay.

14. DISQUALIFICATION

(a) Nose spotted or distinctly any other colour than black, except in blue Chows, which may have solid blue or slate noses *and in creams, which may have a brown or liver coloured nose.*. Tongue red, pink, or obviously spotted with red or pink. Drop ear or ears. A drop ear is one which is stiffly carried or stiffly erect, but which breaks over at any point from its base to its tip *or which lies parallel to the top of the skull.*

We want to be able to show the creams with a brown or liver coloured nose, as this does not affect their tongue pigment.

Or totally delete this sentence.

~~*(b) Nose spotted or distinctly any other colour than black, except in blue chows, which may have a blue or slate nose and in creams, which may have a brown or liver nose.*~~ Tongue red, pink, or obviously spotted with red or pink. Drop ear or ears. A drop ear is one which is stiffly carried or stiffly erect, but which breaks over at any point from its base to its tip *or which lies parallel to the top of the skull.*

There could be a problem with telling the difference between a dark cream and a very light red to tell which nose colour the dog should have so it would simplify things just to just take this out as a disqualification and put it in as a serious fault.
